To: All Known Prospective Submitters

ADDENDUM NUMBER 2:

Re: PD 19-20.026 Waste Services Section 5 Cell 1B Design

All:

Your firm recently received a Request for Letters of Interest for the above-mentioned specification. This Addendum Number 2 states a question from a vendor and an answer from the project manager.

Question 1: The Request for Letters of Interest mentions that Cell 1B covers a 20 acre area, but our research shows that Cell 1B is permitted as approximately 10 acres per Permit# 0000667-017-SC. We could not find any modifications to Cell 1B area since the original Section 5 permit was issued in 2009. Please confirm the acreage for this project's expansion area.

Answer: The mining footprint (project's expansion area) is designed to be 20 acres. The actual cell design footprint could be less than 20 acres.

This Addendum Number 2 is furnished to all known prospective submitters. Please sign and submit one copy of this Addendum, with signature, with your submittals in GovernmentForms as an acknowledgement of your having received same. You may photo copy this form for your records.

Sincerely,

Savannah Kruse
