Construction Quality Assurance (CQA) - Perdido LF Section 5 Cell 1B Expansion

Solicitation Identification Number PD 21-22.068

I. SCOPE OF WORK

BACKGROUND

Escambia County Department of Solid Waste Management (DSWM) located at 13009 Beulah Road, Cantonment, Florida requests proposals from qualified consultants to perform as an on-site construction quality assurance (CQA) for Cell 1B of the Perdido Landfill Section 5 Expansion. The selected consultant will provide quality assurance oversight for the construction of Cell 1B.

Escambia County currently operates Section 5, Cell 1A for MSW disposal at the Perdido Landfill in Cantonment Florida. This project involves the construction of Cell 1B adjacent to the lined Cell 1A Class I landfill footprint.

Cell 1B is approximately 19 acres of double lined area over an existing unlined landfill. The grading of the Cell 1B will include the excavation of soil/waste from the unlined landfill. The excavated soil will require stockpiling, and the solid waste will require disposal by the selected Construction Contractor within the lined footprint. Escambia County has pre-purchased the geosynthetic materials (i.e. geomembrane, geocomposite, geosynthetic clay liner and rain liner) and is currently performing conformance testing prior to delivery to the site. The Construction Contractor will be responsible to purchase and deliver any other geosynthetic materials specified for the project. In addition, the Construction Contractor will purchase, deliver and install a 1-foot sand drainage layer from offsite sources. All other soil will be obtained from onsite borrow sources or from stockpiled soil if suitable for Contractor's use. It will be the selected CQA consultant's role to enforce quality standards associated with the project outlined above, as well as detailed specifications provided in the Construction Quality Assurance (CQA) Plan for the Perdido Landfill Cell 1B Construction dated 21 July 2021.

During the construction period, the selected CQA firm will serve as the County's representative providing general engineering, contract management, and administrative services required for the construction project. This will include but not limited to coordination of written communications between the Contractor, Design Engineer, and the County.

The selected CQA firm will assist the County's project manager to administer the construction contract, review construction issues with the County, will respond to Contractor's correspondence based on County's input and direction, and will issue written instructions from the County. The conformance testing for the Owner purchased geosynthetic materials will be performed by the Counties Engineer of Record. All other testing is the responsibility of the select CQA firm. The selected CQA firm shall prepare and submit the engineering certification report to the FDEP.
